

Ref. FF/cm/150
14 Decembre 2010

Dear Ms. Irina Zugravu,

UNFPA Romania is happy to cooperate, collaborate and share relevant knowledge with VAPRO within UNFPA's mandate, scope of work and the Cooperation Framework governing its operations in Romania, during its physical presence in the country.

Such cooperation covers population and social development activities in Romania of mutual interest with a particular emphasis on mobilizing national (Romanian) and/or European public financing sources for national population and social development activities for the benefit of government and/or non-governmental Romanian institutional partners.

UNFPA Romania considers VAPRO a privileged private sector partner to the extent that VAPRO is committed to supporting the national efforts of both government and civil society institutions in the broadly defined population and social development sector.

UNFPA Romania is pleased to publicly acknowledge the commendable financial and technical contribution and donations of VAPRO as relevant through VAPRO's marshalling support with national or non national funding partners. To that effect UNFPA Romania consents to acknowledging VAPRO's critical role and support in the preparation of documentation and assistance for obtaining Structural and Cohesion Funds offered by European Union for EEIRH. In that context UNFPA Romania is pleased to acknowledge the donations that VAPRO consents to making in favor of national institutions promoting reproductive health and rights, advocating gender equality and fighting domestic and gender based violence.

UNFPA Romania acknowledges VAPRO Group's commitment to mobilizing support for national population and social development programs with such partners as EU and other national and international donor parties. UNFPA Romania is pleased to cooperate with VAPRO on future projects along the successful example of the first collaborative project regarding mobilizing support for EEIRH.

In connection with this agreement, UNFPA appreciates VAPRO's willingness to acknowledge UNFPA's cooperation on their website and in their advocacy materials as and where relevant, without committing UNFPA in whatever way or form and without any prejudice whatsoever to UNFPA.

Handwritten signature of Francois Farah in blue ink, which loops around the text below it.
